SUMMARY

Mobile Application Developer specializing in Flutter and Dart, experienced in building scalable cross-platform applications using MVVM architecture and BLoC state management. Skilled in developing production-ready mobile applications with Firebase, RESTful APIs, optimized data handling, and responsive user interfaces. Experienced in projects including TaskMaster, Enjaz, and QuickMsg, with a strong focus on application performance, clean code, seamless API integration, and delivering reliable, user-focused mobile solutions.

EDUCATION

Bachelor's Degree in Information Technology

2022 – 2026

University of Science and Technology

Yemen

- Graduation Project: Masarak – Full-Stack Recruitment Platform
- Strong foundation in Software Engineering, Algorithms, Database Management, and Application Development

SKILLS

Mobile Application Development

- Flutter
- Dart
- Bloc/Provider
- Cross-Platform Development
- Responsive UI Development
- Real-Time Applications

Software Architecture

- MVVM Architecture
- Clean Code
- Clean Architecture
- Local storage
- Debugging & Troubleshooting

Backend Integration & Databases

- Firebase Authentication Cloud Firestore
- RESTful API Integration
- ASP.NET Core
- MySQL/SQL Server
- Supabase
- HTTP/HTTPS
- Real-Time Data Synchronization

Development Tools & Practices

- Git
- GitHub
- Agile / Scrum
- Trello
- UI/UX Implementation

CERTIFICATIONS

Flutter and Dart: Developing iOS, Android, and Mobile Applications

IBM & Coursera

1 Million Prompters - AI Prompt Engineering

Dubai Future Foundation & Dubai Centre for Artificial Intelligence

Certificate of Attendance (Artificial Intelligence in Study & Academic Research)

Educational Master Central (EMC)

English Language Proficiency (American File)

University of Science and Technology, Yemen

IC3 - Internet and Computing Core Certification

International Institute, Hadramout, Yemen

Software Engineering Success Seminar

Dev Zone & Hadhramout Foundation for Human Development

Online Freelancing Strategies and AI

Al-Hababi Business Services & Entrepreneurship, UK

Certificate of Attendance (Using AI to Build Your Identity & Create Your Content)

Educational Master Central (EMC)

ICDL - International Computer Driving License

University of Science and Technology, Yemen

Human Resources Management

Decision Makers Int'l Corp for Human Development

PROJECTS

Masarak <i>Full-Stack Recruitment Platform - (Graduation Project)</i> - Engineered a full-stack recruitment platform connecting employers with job seekers using Flutter for the frontend and ASP.NET Core for the backend - Designed and integrated RESTful APIs to support job postings, CV submissions, and candidate qualification processes	03/2026 – 06/2026
QuickMsg <i>Present Real-Time Messaging Application</i> - Developed a high-performance messaging application with a highly responsive user interface - Utilized Flutter and Firebase to provide secure authentication and real-time data synchronization.	03/2026 – Present
TaskMaster <i>Productivity & Task Management App</i> Optimized local data storage using SharedPreferences and created an interactive user interface with custom animations and notifications	10/2025 – 11/2025
Enjaz <i>Enterprise Employee Management System</i> - Developed an employee management system for efficient team administration - Leveraged Firebase Firestore and Authentication to support real-time attendance tracking and secure admin-based data structures	05/2025 – 08/2025
