SUMMARY

Mobile Developer specializing in Flutter & Dart, building scalable cross-platform apps with clean MVVM architecture and Bloc state management. Delivered production-ready apps (TaskMaster, Enjaz, QuickMsg) that reduced data retrieval latency up to 40% and maintained a 99.3% crash-free rate through optimized caching, Firebase integrations, and robust RESTful APIs. Focused on translating complex UX into pixel-perfect, high-performance interfaces that drive measurable user impact

EDUCATION

Bachelor's Degree in Information Technology 2022 – 2026
University of Science and Technology Yemen
Successfully completed graduation project "GoWork" platform. Gained strong foundation in software engineering, algorithms, and database management

SKILLS

Mobile Application Development - Flutter Framework - Dart Programming Language - State Management (Bloc/Provider) - Cross-Platform (iOS/Android)	Backend Integration & Databases - Firebase (Firestore & Authentication) - RESTful API Integration - ASP.NET - Relational Databases (MySQL/SQL Server)
Software Architecture - MVVM Architecture - Clean Code Principles - Local Storage (SharedPreferences)	Core Programming - Object-Oriented Programming (Java) - Data Structures (C++) - Data Mining (Python)
Tools & Methodologies - Git & GitHub - Agile/Scrum - UI/UX Implementation - Trello (Project Management)	

CERTIFICATES

Flutter and Dart: Developing iOS, Android, and Mobile Applications ⓘ Issued by: IBM & Coursera , April 2026	Software Engineering Success Seminar ⓘ Organized by: Dev Zone & Hadhramout Foundation for Human Development Dec 2025	ICDL - International Computer Driving License ⓘ Issued by: University of Science and Technology, Yemen May 2023	IC3 – Internet and Computing Core Certification Issued by: International Institute, Hadramout, Yemen Aug 2022
Online Freelancing Strategies and AI ⓘ Issued by: Al-Hababi Business Services & Entrepreneurship, UK Sep 2024	Human Resources Management Issued by: Decision Makers Int'l Corp for Human Development Jan 2025	English Language Proficiency (American File) ⓘ Issued by: University of Science and Technology, Yemen May 2023	1 Million Prompters - AI Prompt Engineering ⓘ Issued by: Dubai Future Foundation & Dubai Centre for Artificial Intelligence Apr 2026

PROJECTS

QuickMsg <i>Real-Time Messaging Application</i> • Developed a high-performance messaging app with a highly responsive user interface. • Utilized Flutter and Firebase to achieve secure authentication and instant, zero-latency data synchronization.	03/2026 – Present
GoWork <i>Full-Stack Recruitment Platform (Graduation Project)</i> • Engineered a comprehensive recruitment platform connecting employers with job seekers. • Integrated a Flutter frontend with an ASP.NET backend via RESTful APIs to facilitate seamless job postings, CV submissions, and candidate qualification.	03/2026 – Present
Enjaz <i>Enterprise Employee Management System</i> • Built an enterprise-grade employee management system for efficient team administration. • Leveraged Firebase Firestore and Authentication to support real-time attendance tracking and secure admin-based data structures.	05/2025 – 08/2025
TaskMaster  <i>Productivity & Task Management App</i> • Designed a robust task management application with dynamic category filtering. • Optimized local data storage via SharedPreferences and created an interactive UI with custom animations and notifications.	10/2025 – 11/2025
